1. The Method of Reflective Equilibrium. The method of reflective equilibrium consists in working back and forth among our considered judgments (some say our "intuitions," though Rawls (1971), the namer of the method, avoided the term "intuitions" in this context) about particular instances or cases, the principles or rules that we believe govern them, and the theoretical ...

As the medical ideas moved away from devil-caused diseases to nature-caused diseases, Wind became the first and most important of exterior causes. The concept soon developed into the six Qi and six Yin [ 13 ], and Wind became specifically associated with the spring season, even though spring is definitely not the season in which there is more ...
