Philosophy of religion is the interface between philosophy on the one hand and theology and religious studies on the other. It belongs to theology and religious studies in virtue of its subject matter, and to philosophy in virtue of its method. How we think of the philosophy of religion will then depend on how we think of its mother disciplines.

Introduction to the Philosophy of Religion - bethinking.org

Philosophy of religion is the philosophical examination of the themes and concepts involved in religious traditions as well as the broader philosophical task of reflecting on matters of religious significance including the nature of religion itself, alternative concepts of God or ultimate reality, and the religious significance of general features of the cosmos (e.g., the laws of nature, the emergence of consciousness) and of historical events (e.g., the 1755 Lisbon Earthquake, the Holocaust).
