1240 BC THE PAPYRUS OF ANI (THE EGYPTIAN BOOK OF THE DEAD) Translated by E.A. Wallis Budge HYMN TO OSIRIS  
"Homage to thee, Osiris, Lord of eternity, King of the Gods, whose names are manifold, whose forms are holy, thou being of hidden form in the temples, whose Ka is holy.

## Papyrus of Ani; Egyptian Book of the Dead [Budge]

SAS reports Wilks lambda  $\lambda$  ( $\lambda = 0.00215$  ;  $F = 87.39$  ;  $d.f = 12,114$  ;  $p < 0.0001$ ). Wilks lambda is a ratio of two variance-

covariance matrices (raised to a certain power). If the values of these statistics are large (small p-value), then we reject the null hypothesis. In our example, we reject the null hypothesis that there is no ...

### **Lesson 13: Canonical Correlation Analysis**

By default SAS, draws an imputed dataset every 100 iterations, if correlation appears high for more than that, you will need to increase the number of iterations between imputed datasets using the niter option. Take a look at the SAS 9.4 proc mi documentation for more information about this and other options.
