"ChartSmart's trading software and systems have allowed me to trade Forex and the S&P 500 successfully for the first time in 4 years. The scanner data is a game changer, I can't thank you enough." K.Rogers

Trade Smarter. Quant based trading software and systems

Each outcome has a probability of about 16.67% (1/6). Our plot below shows the solid line (so you can see it better), but keep in mind that this is a discrete distribution—you can't roll 2.5 or ...

Using Common Stock Probability Distribution Methods

Probabilities in trading are often discussed, but humans have an abysmal capacity to understand and calculate probabilities. Our minds are just not hard-wired for it. We love to assign probabilities though, but the probability assigned to an event is often grossly inaccurate, or based on inaccurate/wrong presumptions.

Probabilities in Trading - How Your Mind Is Tricking You

The Trade and Probability Calculator provides calculations that are hypothetical in nature and do not reflect the actual investment results or guarantee future results. The calculations do not consider commissions or other costs, and do not consider other positions in your account(s) for which a specific trading scenario is being examined.

Trade & Probability Calculator

On page 66 of Smarter Trading, Perry Kaufman discusses the risk of ruin and provides us with a formula to work with. He considers the following 2 premises: In real trading, once profits accumulate, the chance of ruin decreases. ... Edge is the probability of a win.

The Risk of Ruin - Emni Day Trading

I'm more interested in predictability and consistency than a big score. So I prefer Don's high-probability credit-spreads. When doing my search, I use 85% probability as the criterion. But out of 3 dozen trades, only 2 didn't work, and that puts me north of the 90% success rate.
